For: Coaxial Cable Connector

**AMENDMENT** 

Hon. Commissioner for Patents P.O. Box 1450 Alexandria, VA 22313-1450

In response to the Office Action dated March 7, 2003, please amend the above-identified 6/23 patent application as follows:

## IN THE CLAIMS

1. (Amended) A cable connector for interconnecting coaxial cables having center and outer conductors, comprising:

first and second insulated housings matable with one another and configured to receive coaxial cables, said first and second insulated housings including first and second cavities, respectively;

BI

first and second center contacts configured to securely attach to center conductors of coaxial cables, said first and second center contacts being inserted into said first and second cavities, respectively, at least one of said first and second center contacts constituting a blade contact having a flat planar body section; and

first and second outer ground contacts configured to securely attach to outer conductors of coaxial cables, said first and second outer ground contacts each having at least one planar wall secured to a respective first and second insulated housing, said planar walls of said first and second outer ground contacts being positioned on opposite sides and parallel to said planar body section.
